

International Sport Federation (IF) recognized by the International Olympic Committee

To Jeovani Ferreira Salomão
President Brazilian Bridge Federation

09 October 2020

Dear Jeovani

We are really pleased to send you the attached presentation of the BIC (Bridge International Championship) which is going to be a great tournament held online from October 26th to November 1st.

As you know, due to Covid 19 , we cancelled the WOC (World Online Championship) this year but it has been re-scheduled to take place between April and September 2021 with, hopefully, the live final in November.

The BIC is conceived as a rehearsal for the WOC and we would really appreciate your help in promoting the event and encourage as many players as possible to participate. And in return for your help and cooperation you will receive 15% of the net income from your registered players who will be competing for a national title in addition to an overall world title. You can see the details of this in the attached document.

At the end of the tournament in addition to the funds you will receive you will be sent the ranking list for your players, together with details of the masterpoints they won which you can then convert to your own master points if you so wish.

In any event the leading players will be awarded WBF Online Masterpoints in addition to BBO and FunBridge masterpoints.

We really hope you will encourage as many players from your Federation as possible to participate in this new and exciting event – we would be very grateful if you could let us know that you will promote the event and how you plan to do so, and if you are putting it on your website as we hope you will, please send the link to Anna Gudge (anna.gudge@worldbridgefed.com)

With best regards

Gianarrigo Rona
WBF President
